Subject: Climate Impacts Subcommittee co-chair of EJ IWG

Hi Marsha and Chris, I will also be rotating off as co-chair, given the roles I'm stepping into for multiple lead (Pb) efforts, including ORD's rep on EPA's PlanEJ2020 Lead Disparities workgroup and on the Lead Subcommittee of the President's Task Force for Children's Environmental Health Risks and Safety Risks. The good news is Dr. Andrew Geller is enthusiastically stepping into the EPA co-chair role as I continue to participate as a member, and I know Andrew will bring great energy and ideas to help move the subcommittee forward.

I'm happy to participate in discussions to help with the EPA & HUD co-chairs transition. It has been a pleasure working with you and I look forward to our continued collaborations!

Kind regards,

Valerie

Chris- thanks for the update and glad you will still be on the committee. Your health comes first!

Talk with you when you return.

Marsha

Hi Marsha –

I wanted to follow up and let you know that I'm going to need to step off as co-chair of the CIWG. I'm planning to remain as a member-at-large, but our office is ramping up some activities and I'm going to be pulled onto new initiatives. The number of conflicting priorities is rising. I'm also going to be addressing a couple of Ex. 6 - Personal Privacy this summer, with at least Ex. 6 - Personal Privacy so I'm not going to be on a regular schedule.

I'm happy to discuss, if you'd like. I let Jim Potter know, and spoke with Valerie recently about this, too. I'm on leave after today, but you're welcome to call me on my cell Ex. 6 - Personal Privacy

Ex. 6 - Personal Privacy

Talk soon!

Chris

Subject: RE: Catchup

Hi Marsha and Cynthia! Hope you are well. Chris Trent is out next 2 weeks and I'm out next week, so if you want both of us and Andrew on a call it could be week of 5/1.

The FY17 priorities will be discussed on next Thursday's Climate Impacts Subcommittee call (to be led by Joey). We discussed them on the last call, too (but there were very few people on the call), so you could get a status update on the 4/20 11am call in the meantime.

Progress continues on the EMI, systems framework, summary of communities projects & information/tools/best practices to address needs identified at NIEHS Climate Justice workshop. No progress currently on summarizing potential international efforts for leveraging, or on the climate justice info portal in the Climate Resilience Toolkit. We wanted to talk with you about how you see the priorities/directions of this subcommittee given the new Administration & EJ IWG priorities. This subcommittee participation has dwindled over the last few months, presumably because of all the uncertainty around climate impacts efforts in the federal agencies. Any guidance/suggestions from you would be most welcome.

Thanks,

Valerie

Subject: Catchup

Hi—hope all is going well. The Strategy Implementation team (Cynthia and I) would like to meet with the Climate Change co-chairs and Andrew to discuss the committee's FY 17 priorities. Give me some dates/times that may work. Thanks!
